Chief Executive Officer's Message

The board, management and staff of CS Education Group are very pleased to introduce to you the newly established college – **CS Institute Australia**. We take great pride in our work, care and passion, and we aim to deliver quality vocational and training courses to youth and mature aged individuals to pursue their education, training and career pathway.

A Millennia ago, Socrates claimed that, "To say, 'I know' is to close ones mind to knowledge". Pursuing this, our motto is ASK- Always Seek Knowledge, because we at CS Institute Australia believe that learning is limitless.

Our highly qualified, experienced and dedicated trainers guide and facilitate training where the knowledge, skills and experiences learnt leave a lasting memory. Empowering our students with quality education in the broader horizon is the mission we embrace at CS Institute Australia. With a keen focus on quality education, we are steadfast in our path of facilitating and mentoring our students to scale greater heights.

Being a technologically advanced leading edge institution, we hope to instil in our students a thirst for learning throughout their lives.

Our institute is very welcoming and I look forward to see you at CS Institute Australia in the future.

Testimony Kim
Chief Executive Officer
CS Institute Australia

CS EDUCATION GROUP

About CS Institute Australia

CS Institute Australia provides vocational education and training courses that meet the needs of the relevant industries and workplaces. The CS Institute Australia is a Registered Training Organisation (RTO) with RTO registration number 41430. The Institute delivers courses that teaches relevant working skills and provides the best practice training for our students.

CS Institute Australia is a part of CS Education Group. The Group has over fourteen years of experience in providing successful and satisfactory services to the Australian community in education. The group has helped education embrace technological innovations of time and is known for its technologically advanced education and training network, and customised learning materials and resources. The legacy of CS Education Group with CS Institute Australia has made it a unique institute and provided an edge over others, despite being new to the vocational education and training.

The trainers at CS Institute Australia are highly qualified in their respective fields and understand the need to train with the latest techniques and technologies to meet industry standards.

CS Institute Australia believes in offering students real world experience. It involves not only theory but also the opportunity to put this theory into practice within a real organisation. The Institute provides assistance to our students to connect with relevant industries for real world placement, volunteering and work opportunities.

Our Mission

To achieve excellence in providing quality vocational education, training and mentoring in a caring environment facilitated with technological innovations of modern times and with customised learning materials and resources as per industry needs to help students achieve greater heights.

Our Aim

CS Institute Australia aims:

1. To provide friendly and caring environment to students where they can look for their strengths and build up their confidence while they become more aware of themselves as potential individuals.
2. To deliver quality vocational education and training courses that cater the needs of individuals from diverse background and help them achieving their goals.
3. To guide students with professional career advice that will help them to choose their pathway to university and/ or their professional career.

Benefits of CS Institute Australia

Online Benefit - LMS

CS Institute Australia offers its students a unique and supportive online platform which ensures the back up of their learning and activities in class. Students can access that back up when they need or if they encounter any problem. The Institute offers the smart learning tool that assists students' learning anytime, anywhere. All this is possible now with the exclusive Learning Management System (LMS) of CS Institute Australia.

LMS is designed to be used online or on portable devices like smartphones and tablets. With personalised notifications and multimedia integration, it allows students to access the learning materials anytime and make learning much easier.

Supervised Study

CS Institute Australia offers a caring and friendly environment which motivates students to enjoy a lifetime of discovery and learning. CS Institute Australia offers special attention and assistance to every individual in order to ensure that they maximize their potential and develop their career pathway.

Training Staff

All courses at CS Institute Australia are taught by experienced and qualified teachers who are passionate and expert in teaching. They are all industry trained professionals and are always ready to assist every individual whenever they are asked to. CS Institute Australia is proud of its teachers' abilities and skills and they are a vital part of the Institute.

Small Class Sizes

The learning strategy designed by the Institute suits best for teaching in small groups. As a result, the students in a class are limited in numbers. This strategy of one on one allows teachers to give individualised attention to every student, and on the other hand, it allows every student the opportunity to participate more in class. As an ultimate result of that, the learning in class becomes more interactive and student participatory.

Fully Accredited Courses

CS Institute Australia is a Registered Training Organisation (RTO) registered by the Australian Skills Quality Authority (ASQA). All courses at the Institute are not only fully accredited but they are also aligned with the Australian Qualifications Framework (AQF). The qualifications received by the students at CS Institute Australia are recognised by the industry and acceptable if students wish to advance their studies.

Employment Placement

CS Institute Australia understands the importance of work placement that gives you the chance to gain hands-on and valuable experience before getting into the workforce. The Institute will work closely with CS Education Group and other industry partners to assist students to find placement, volunteering and internships opportunities. This initiative will help students to increase their skills and knowledge and have a better understanding of the industry and hence have a successful career.

University Pathways

Students who wish to further their studies have a lot in courses CS Institute Australia offers. After successfully completing the accredited courses at the Institute, students can apply for further studies in a college or university of their choice. If they are successful in securing admission in a college or university, there will be a high chance for them to be eligible for receiving exemptions that can shorten their degrees.

Recognition of Prior Learning

CS Institute Australia provides opportunity to its students to get recognition of their already achieved skills and knowledge if the evidence provided meets the learning outcomes of the relevant qualification or unit of competency. The recognition is awarded after evaluating the written application submitted and documented evidence claimed by the students.
